## Directors Notes

It's hard to believe we've got just 4 rehearsals more until our annual show at Van Wezel. Our show line-up is coming together nicely, and we've got a lot of wonderful music to present to our patrons. We're looking forward to hosting our special guests, Vocal Spectrum, and expect we'll have a memorable show on February 9th.

Please review our line-up below and prepare yourself mentally and physically for the flow from one song to the next. Be sure and review the choreography that Gary has summarized and walk your way through each number. If you have any problems, please check with your section leader for assistance.

Also, please take note of the costume variations throughout the show and be sure you have all of your items in good condition. Jack Webber can assist you with costume details if you get together with him immediately. **DO NOT** leave anything to the last minute, or chances are there won't be enough time to get missing items replaced.

And now, on with the show.....

Onward and Upward  
Stephen

### HOW TO USE YOUR LEARNING CDs

**Important Note:** It has come to my attention that some of you do not realize that the learning tapes I have made for you have a helpful feature: your part-predominant is on the left channel. If you adjust your stereo CD player all the way to the left channel, you will hear only your part. If you adjust it all the way to the right, you will hear only the other harmony parts with your part missing. When you're just learning, you may want to hear more or less of your part. By eliminating your part in the mix, you can sing with a quartet and find out how much you really know.

Get the most out of your learning **CD** — take advantage of this **GREAT** feature.

Steve
